

# KDSCREEN AQ WASH 1:1

## Technical Data Sheet

### Description

Low odour, hazard label free, water dilutable Screen Wash. Contains no Aromatic Hydrocarbons.

Low evaporation minimises volatiles in the work area and reduces consumption.

Can be diluted with water before use, preferably 1:1.

Available in 5, 25 & 210 litre units.

### Use

For removal of printing ink prior to screen reclaiming.

Especially recommended for UV inks.

### Application

Apply to both sides of the mesh using a brush or automatic cleaning machine until ink has dissolved.

Note, if applied to thicker ink layers leave on for a few minutes to help the removal of ink.

After dissolving ink residues both ink and solvent can be removed using water.

Initially rinse chemicals off screen using mains water and then use high pressure.

The product will separate on standing when mixed with water. The mixture requires agitation to avoid separation.

Flash point: 100°C.

Evaporation rate (BuAc=100): <1

### Shelf Life/Storage

Min. 2 years, when stored at 0-25°C.

If stored under freezing conditions below -10°C, product may separate so bring into room temperature and agitate before use.

*In the interest of health and safety always wear appropriate protective clothing.  
Read Safety Data Sheet for full protection information.*
