

KDSCREEN DEGREASER 1:50

Technical Data Sheet

Description

Yellow liquid.

Available in 1 & 5 litre units.

Use

Used prior to the application of direct stencils i.e. photo emulsions to degrease mesh. Removes contamination to give improved adhesion of emulsion to mesh.

Application

Dilute 1 part KDSCREEN DEGREASER 1:50 with 50 parts of water. To avoid foaming add KDSCREEN DEGREASER to water.

Apply KDSCREEN DEGREASER in diluted form with a brush to both sides of mesh. Leave on mesh 2–3 minutes and then rinse off well with water.

Shelf Life/Storage

2 years if stored at room temperature – prevent freezing.

In the interest of health and safety always wear appropriate protective clothing.

Read Safety Data Sheet for full protection information.
