

KDSCREEN LOW VOC WASH

Technical Data Sheet

Description

Low VOC Screen Wash with emulsifying agents.

Low evaporation minimises volatiles in the work area and reduces consumption.

Available in 5, 25 & 210 litre units.

Use

As general purpose Screen Wash to remove ink from the stencil during print runs or to remove ink where screens or stencils have to be reused.

Applications

Apply to both sides of the mesh using a brush until the ink has dissolved. Note, if applied to thicker ink layers leave on for a few minutes to help the removal of ink.

After dissolving ink residues both ink and solvent can be removed using water.

Initially rinse chemicals off screen using mains water and then use high pressure.

Type

General purpose, especially recommended for UV-inks.

Low evaporation; Low odour.

Flash point: 100°C.

Shelf Life

2 years if stored at 0-30°C.

Precautions

Use protective gloves and safety goggles.

Do not breathe vapour or spray.

In the interest of health and safety always wear appropriate protective clothing.

Read Safety Data Sheet for full protection information.
