

KDSCREEN STENCIL REMOVER 1:25

Technical Data Sheet

Non Corrosive Stencil Remover

Description

Liquid water based Stencil Remover Concentrate to be diluted 1 part with 25 parts of water. This product is not classified as corrosive to humans or for transport.

Available in 1 & 5 litre units.

Use

For the efficient removal of all direct stencil systems.

Application

Apply after removing ink with KDSCREEN SCREEN WASH and water. Use a brush or spray to apply to both sides of the screen. When stencil is dissolved, remove with water preferably followed by high-pressure spray.

Please note – do not apply product at full concentration or let it dry before removing with water as the stencil hardens and becomes difficult to remove.

Shelf Life/Storage

2 years, if stored in non-freezing conditions.

In the interest of health and safety always wear appropriate protective clothing.

Read Safety Data Sheet for full protection information.
